Date: September 29th, 2010

Subject: CONFIRMATION LETTER FOR THE ORIGIN OF HIGH SPEED FUSES

To whom it may concerns,

According to Cooper Bussmann's developing strategy, please be informed that most of the High speed fuses with part number 170M family are now being produced in China from 2010. They are the alternative solutions for the 170M family previously manufactured from EU/G7.

Yours faithfully,

Bussmann International, Inc

A handwritten signature in blue ink that reads "Roy Wong". The signature is written in a cursive, flowing style.
